

Oral presentations

Duration:	Equivalent of two workshop days, spread over one week. This course includes two live webinar sessions and instructor feedback on your presentation
Online access to the course:	Until three weeks after the end date
Trainer:	Philipp Gramlich
Target group:	PhD student and postdocs

Presenting your work in front of an audience is a great way to disseminate your research and to get in touch with fellow scientists. However, for some of us, it is also scary: dozens, maybe hundreds of eyes peering at you...

In this course you'll learn more about:

- Setting analysis: who will you speak to in which setting? How will this affect your talk?
- Structure and 'story' of a presentation
- Slide design, not decoration
- Stage fright and how to enjoy the adrenaline
- Rhetorics
- Your own presentation: integrate what you have learned and get feedback
- Q&A sessions

Course flow

Day 1	Day 2	Day 3	Day 4	Day 5
Live webinar: - kick off - setting analysis	Videos: - structure and story	Live webinar: - slide design	Videos: - stage fright - rhetorics	Individual work: prepare own presentation
