

## PhD, and next?

|                                     |                                                                                                     |
|-------------------------------------|-----------------------------------------------------------------------------------------------------|
| <b>Duration:</b>                    | Equivalent of two workshop days, spread over one week. This course includes 4 live webinar sessions |
| <b>Online access to the course:</b> | Until three weeks after the end date                                                                |
| <b>Trainer:</b>                     | Karin Bodewits or Philipp Gramlich                                                                  |
| <b>Target group:</b>                | PhD student and postdocs                                                                            |

So, you finally have a science degree- or will in the future. What to do with it? Are all doors open to you or is there still a lot of work to be done?

### In this course you'll learn about:

- About yourself: Your interests, values and skills
- Career options: There are many more options than you think and you will be able to change between them
- Shall I do a postdoc or not?
- Skill development: Which (hidden) skills do you already have, which can you develop during your time in academia
- Skills match: What do employers want from you? How to sell yourself?
