

PhD, and next? Career options, skills and orientation for scientists

Duration:	Equivalent of two workshop days, spread over one week. This course includes three to four live webinar sessions. Optional extra: 30 minutes of private feed back for each learner
Trainer:	Karin Bodewits or Philipp Gramlich
Target group:	PhD student and postdocs

So, you finally have a science degree- or will in the future. What to do with it? Are all doors open to you or is there still a lot of work to be done?

In this course you'll learn about:

- About yourself: Your interests, values and skills
- Career options: There are many more options than you think and you will be able to change between them
- Shall I do a postdoc or not?
- Skill development: Which (hidden) skills do you already have, which can you develop during your time in academia
- Skills match: What do employers want from you? How to sell yourself?
